Wir haben gute Neuigkeiten: Die OE Germany ist nun Datenlieferant für den TecDoc Catalogue von TecAlliance und global als Anbieter gelistet!

Der TecDoc Catalogue von TecAlliance ist der weltweit führende E-Commerce Katalog für Fahrzeuge und Ersatzteile und existiert schon seit über 20 Jahren. Dahinter steht eine umfassende Datenbank in 35 Sprachen, die alle wichtigen Ersatzteile namhafter Hersteller in sich vereint. Sie umfasst mehr als 700 Marken, 110.000 Fahrzeugtypen und 6,6 Millionen standardisierte Produktbeschreibungen. Werkstätten, (Groß-)händler und Hersteller von Motoren- und Ersatzteilen können so auf eine gemeinsame Basis zurückgreifen, mit der die Ersatzteilsuche und -identifikation erheblich vereinfacht und beschleunigt wird. Dies führt zu einer effektiven Vermarktung und einer erfolgreichen Zusammenarbeit aller Akteure des (Independent) Aftermarkets. Ausführliche Informationen zu Wartung und Reparatur (RMI) sowie zu benötigten Arbeitszeiten runden den Service ab.

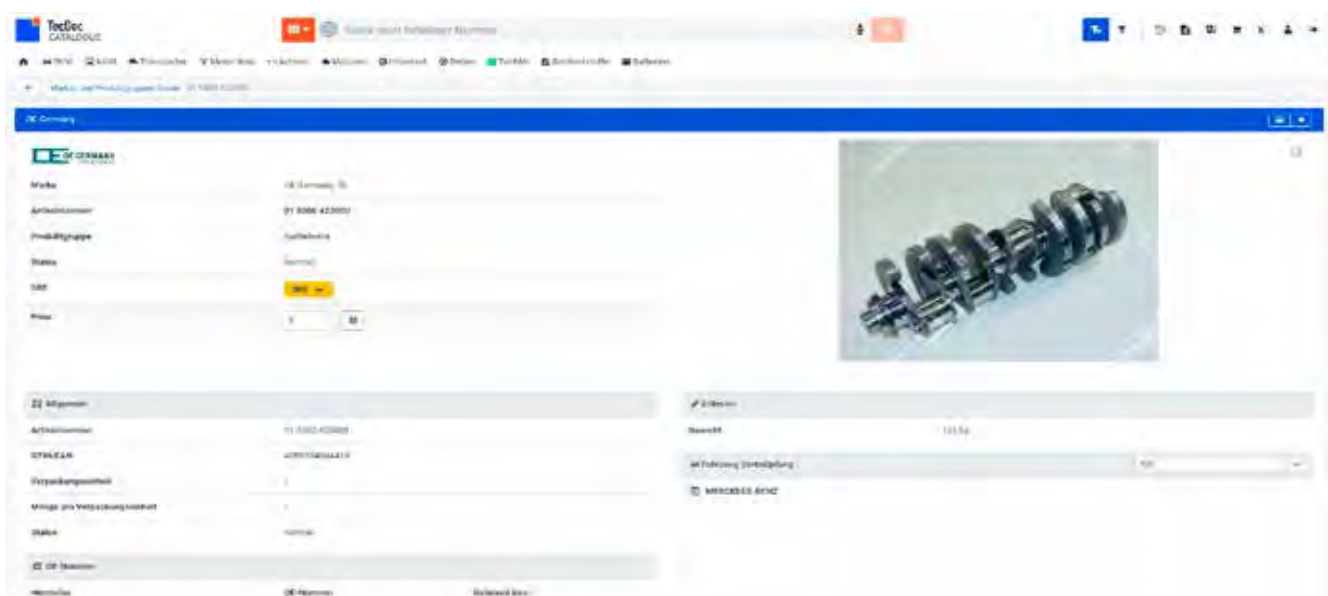

Die Suche nach passenden Ersatzteilen kann im TecDoc Catalogue individuell gestaltet werden. Es kann entweder nach Fahrzeug (Schlüsselnummer, Fahrzeugidentifikationsnummer), nach OE-Nummer oder nach der Artikelnummer des jeweiligen Herstellers gesucht werden.

Neben unseren anderen Produktgruppen im LKW- und NFZ-Bereich finden Sie im TecDoc Catalogue unsere folgenden **Produktgruppen-Highlights**:

TecDoc

CERTIFIED

TecDoc®
DATA SUPPLIER

We have good news: OE Germany is now a data supplier for the TecDoc Catalogue from TecAlliance and is listed globally as a provider!

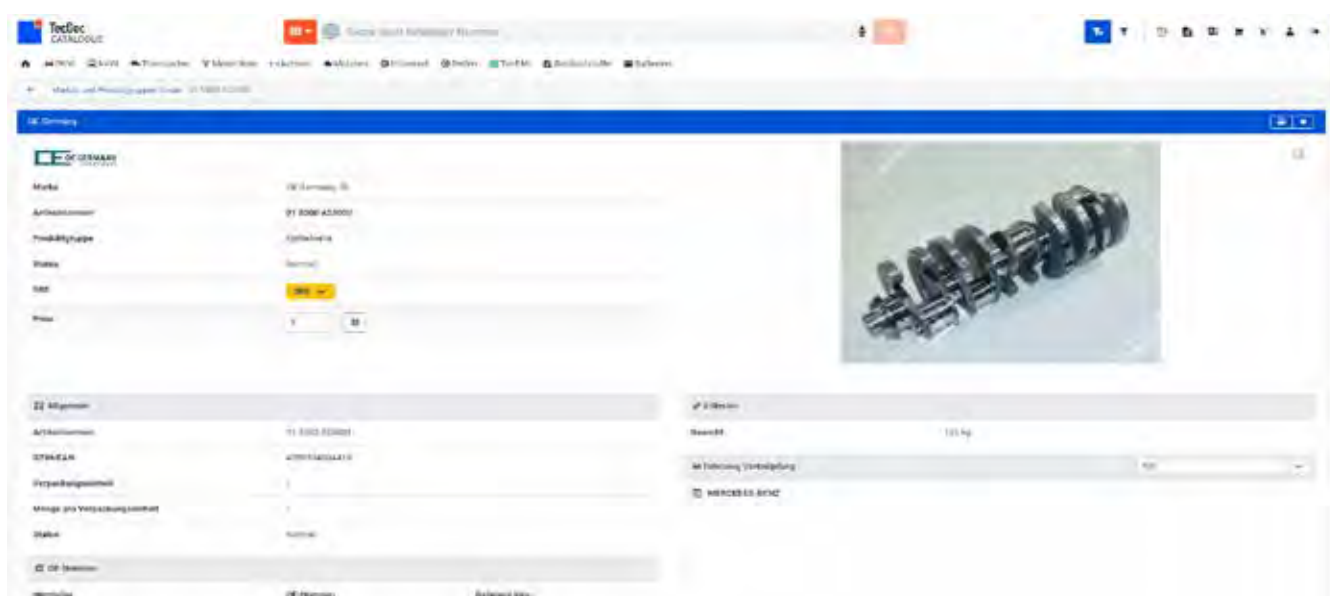

TecAlliance's TecDoc Catalogue is the world's leading e-commerce catalogue for vehicles and spare parts and exists since over 20 years. It is based on a comprehensive database in 35 languages, which unites all important spare parts from well-known manufacturers. It includes more than 700 brands, 110,000 vehicle types and 6.6 million standardized product descriptions. Workshops, wholesalers, distributors and manufacturers of engine and spare parts can thus fall back on a common basis, with which the search and identification of spare parts is considerably simplified and accelerated. This leads to effective marketing and successful cooperations between all players in the (independent) aftermarket. The service is rounded off by detailed information on repair and maintenance information (RMI) as well as the working hours required.

The search for suitable spare parts can be customized in the TecDoc Catalogue. You can search either by vehicle (key number, vehicle identification number), by OE number or by the article number of the respective manufacturer.

In addition to our other product groups in the truck and commercial vehicle sector, you will find our following **product group highlights** in the TecDoc Catalogue:

- crankshafts
- cylinder heads
- cylinder liner kits
